Springer Nature is committed to opening up paths to discovery for today's researchers in order to accelerate their ability to solve societies' grand challenges. The illustrations we use on our covers celebrate some of the great minds who have shaped our knowledge through history.

Alfred Nobel (1833–1896)

Alfred Nobel was a Swedish chemist, engineer and inventor of dynamite. Dynamite made him very wealthy but partly in response to concerns about its negative uses, he decided to give the vast majority of his estate to establish the five Nobel Prizes including the Nobel Peace Prize for those who promote peace around the world.

This illustration was created by one of the talented team of designers at Springer Nature.

Credit cards preferred (AMEX, MasterCard, VISA).

Springer Nature ships internationally.
